Sample Description:
Comment: Migrant House

Environmental Microbiology - Colisure Profile **Method: SM 9223B**

Test Name: Water - Colisure

Analyte	Test Result	Date
Total Coliform, Colisure	Absent	01/22/2018
<i>E. coli</i> , Colisure	Absent	01/22/2018

Report Date: 01/22/2018

Reported By: Susan Beasley

Explanations of Coliform Analysis:

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
