**Environmental Microbiology - Colilert Profile** Method: SM 9223B

---

Test Name: **Colilert**

Analyte	Test Result	Analyst	Date
Total Coliform, Colilert	Present	Valerie Yager	11/10/2010
<i>E. coli</i> , Colilert	Absent	Valerie Yager	11/10/2010

Report Date: 11/12/2010

Reported By: Susan Beasley

**Explanations of Coliform Analysis:**

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
