Sample Description:

Comment:

Environmental Microbiology - Colilert Profile **Method: SM 9223B**

Test Name: **Colilert**

Analyte	Test Result	Analyst	Date
Total Coliform, Colilert	Present	Susan Beasley	12/16/2015
<i>E. coli</i> , Colilert	Absent	Susan Beasley	12/16/2015

Report Date: 12/17/2015

Reported By: Susan Beasley

Explanations of Coliform Analysis:

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
