**Environmental Microbiology - Colilert Profile**

**Method:** SM 9223B

**Test Name:** Colilert

Analyte	Test Result	Analyst	Date
Total Coliform, Colilert	Absent	Susan Beasley	12/20/2012
<i>E. coli</i> , Colilert	Absent	Susan Beasley	12/20/2012

**Report Date:** 01/02/2013

**Reported By:** **Susan Beasley**

**Explanations of Coliform Analysis:**

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
