Disinfectant Used:	Free Chlorine:	Total Chlorine:	

Comments: Well running during sampling.

**PWS - Colilert Profile**

**Method: SM 9223B**

Analyte	Test Result	Unit	Conclusion	Date Tested
Total Coliform	Absent			05/09/2019
E. coli	Absent			05/09/2019

**Report Date:** 05/10/2019

**Reported By:** **Cindy Price**

**Explanations of Coliform Analysis:**

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
