Sample Location: Private Well - At well h

Location Type: Source/Intake

Location Code:

Disinfectant Used:

Free Chlorine:

Total Chlorine:

Comments:

PWS - Colilert18 Profile

Method: SM 9223B

Analyte	Test Result	Unit	Conclusion	Date Tested
Total Coliform	Absent			09/26/2019
E. coli	Absent			09/26/2019

Report Date: 12/20/2019

Reported By: **KPLEMMONS**

Explanations of Coliform Analysis:

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
