Analyte	Test Result	Unit	Conclusion	Date Tested
Total Coliform	Absent			11/04/2025
E. coli	Absent			11/04/2025

Report Date: 11/14/2025 Reported By: CTUTHEROW

## **Explanations of Coliform Analysis:**

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
