Analyte	Test Result	Unit	Conclusion	Date Tested
Total Coliform	Not Tested			
E. coli	Not Tested			

Note: Analyte(s) 'Unsatisfactory' because laboratory error. New number is #112.

**Report Date:** 02/05/2026

**Reported By:** **DNEWBORN**

**Explanations of Coliform Analysis:**

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
