Sample Desc: Well water

Sampling Point: Kitchen sink

Sample Source: Raw

GPS No.

Treatment:

Well Permit No. 18100114578

Comment:

**Colilert Profile**

**Method: SM 9223B**

Analyte	Test Result	Unit	Conclusion	Date Tested
Total Coliform	Present			04/22/2026
E. coli	Absent			04/22/2026

**Report Date:** 04/27/2026

**Reported By:** **DNEWBORN**

**Explanations of Coliform Analysis:**

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
